COMMUNICATION RE IDS REFERENCES

Assistant Commissioner of Patents
Washington, D.C. 20231

SIR:

On February 15, 2002, Applicants filed an office action response in the instant application. In the response, the undersigned advised the Examiner that the replacement set of IDS references would be provided under separate cover. Enclosed with this Communication is the replacement set of IDS references. Also enclosed for the Examiner's convenience is a copy of the Form 1449 (originally filed on December 8, 2000) in which these enclosed references were cited by Applicants.

Since these references are being provided as a replacement to those lost by the Patent Office, it is believed that no fees are due in connection with these references, and that the timing of providing the replacement set of references to the Examiner in no way adversely affects the calculation of patent term on any patent issued for the present application.

Respectfully submitted,

Date: February 25, 2002
